INDEPENDENT AUDITORS' REPORT

To the Village Council Village of Mayville, Tuscola County, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the Village of Mayville as of and for the year ended March 31, 2006, which collectively comprise the Village's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Village of Mayville's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the Village of Mayville, as of March 31, 2006, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 5, 2006, on our consideration of the Village of Mayville's, internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The budgetary comparison schedules as identified in the table of contents are not a required part of the basic financial statements but are supplemental information required by the accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquires of management regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Mayville's basic financial statements. The accompanying other supplemental information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The other supplemental information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The accompanying financial statements do not present a management's discussion and analysis, which would be an analysis of the financial performance for the year. The Governmental Accounting Standards Board has determined that this analysis is necessary to supplement, although not required to be part of, the basic financial statements.

RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

March 31, 2006

Net change in fund balances - total governmental funds		\$	13,272
Total change in net assets reported for governmental activities in the statement of activities is different because:			
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is depreciated over their estimated useful lives and reported as depreciation expense.			
Capital outlay	115,384		
Less depreciation expense	(51,060)	•	64,324
Debt proceeds are recorded as a revenue in the governmental funds, but as a long-term liability in the statement of net assets			(2,699)
Proceeds from the issuance of long-term debt is a revenue in the governmental funds, but are recorded as long-term liabilities in the statement of net assets			(2,500)
Repayments on principal on capital leases and contracts payable are expenditures in governmental funds, but the payments reduce long-term liabilities in the statement of net assets.			29,470
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.			
Change in compensated absences pyaable	525		
Change in accrued interest on bonds payable	262		787
Change in net assets of governmental activities		\$	102,654

NOTES TO FINANCIAL STATEMENTS

March 31, 2006

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Village of Mayville conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The following is a summary of the significant accounting policies:

Reporting Entity:

As required by accounting principles generally accepted in the United States of America, the financial statements of the reporting entity include those of the Village and its component units. In evaluating the Village as a reporting entity, management has addressed all potential component units (traditionally separate reporting entities) for which the Village may be financially accountable and, as such, should be included within the Village's financial statements. The Village (the primary government) is financially accountable if it appoints a voting majority of the organization's governing board and (1) it is able to impose its will on the organization or (2) there is a potential for the organization to provide specific financial burden on the Village. Additionally, the primary government is required to consider other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The component units discussed below are included in the Village's reporting entity because of their operational or financial relationship with the Village.

Discretely Presented Component Units - The component unit column in the government-wide financial statements includes the financial data of the Village's one component unit. This unit is reported in a separate column to emphasize that it is legally separate from the Village. The component unit is described as follows:

Downtown Development Authority - The members of the governing board of the Downtown Development Authority (DDA) are appointed by the Village Council. The budgets and expenditures of the Downtown Development Authority must be approved by the Village Council. The Village also has the ability to significantly influence operations of the Downtown Development Authority. Complete separate financial statements of the Downtown Development Authority are not prepared.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation:

The accounts of the Village are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Government-wide Financial Statements:

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are

March 31, 2006

levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The statement of net assets and the statement of activities report information on all of the nonfiduciary activities of the primary government and its component units. These statements distinguish between activities that are governmental and those that are business-type activities. Internal service fund activity is eliminated to avoid "doubling up" revenues and expenses.

The statement of net assets presents governmental activities on a consolidated basis, using the economic resources measurement focus and accrual basis of accounting. This method recognizes all long-term assets and receivables as well as long-term debt and obligations. The Village's net assets are reported in three parts (1) invested in capital assets, net of related debt, (2) restricted net assets, and (3) unrestricted net assets. The Village first utilizes restricted resources to finance qualifying activities.

The statement of activities reports both the gross and net cost of each of the Village's functions. The functions are also supported by general government revenues (property taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The statement of activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants.

The net costs (by function) are normally covered by general revenue (property taxes, state sources and federal sources, interest income, etc.). The Village does not allocate indirect costs. In creating the government-wide financial statements the Village has eliminated interfund transactions.

The government-wide focus is on the sustainability of the Village as an entity and the change in the Village's net assets resulting from current year activities.

Fund Financial Statements:

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

March 31, 2006

Property taxes, franchise fees, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met. Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. All other revenue items are considered to be measurable and available only when cash is received by the government.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. When both restricted and unrestricted resources are available for use, it is the Village's policy to use restricted resources first, then unrestricted resources as they are needed.

Fiduciary funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The Fiduciary funds are accounted for on a spending or economic resources measurement focus and the accrual basis of accounting as are the proprietary funds.

The Village reports the following major governmental funds:

The *General Fund* is the primary operating fund of the Village. It is used to account for all financial resources, except for those required to accounted for in another fund.

The *Major Street Fund* is used to account for the maintenance and construction of the Village's major street system.

The *Debt Service Fund* is used to account for the accumulation of resources for, and the payment of, the Village's Storm Water System contract payable, interest, and related costs.

The Village reports the following major enterprise funds:

The **Sewer Fund** is used to account for the revenues and expenses for the operation of a sewer system.

The *Water Fund* is used to account for the revenues and expenses for the operation of a water system.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do no conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The Village has elected not to follow subsequent private-sector guidance.

March 31, 2006

Assets, Liabilities and Equity:

<u>Deposits and Investments</u> – Cash and cash equivalents include cash on hand, demand deposits, certificates of deposit and short term investments with a maturity of three months or less when acquired. Investments, if any, are stated at fair value. For purposes of the statement of cash flows, the Village considers all highly liquid investments (including restricted assets) with a maturity when purchased of three months or less and all local government investment pools to be cash equivalents.

<u>Interfund Receivables and Payables</u> – Generally, outstanding amounts owed between funds are classified as "due from/to other funds". These amounts are caused by transferring revenues and expenses between funds to get them into the proper reporting fund. These balances are paid back as cash flow permits.

<u>Inventories and Prepaid Items</u> – Inventories are valued at cost, on a first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

<u>Capital Assets</u> – Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair market value at the date of donation. The Village defines capital assets as assets with an initial individual cost in excess of \$1,000. Costs of normal repair and maintenance that do not add to the value or materially extend asset lives are not capitalized. Public domain (infrastructure) assets (e.g., roads, bridges, sidewalks and other assets that are immovable and of value only to the government) are not capitalized. Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and improvements	20-50 years
Vehicles	5-10 years
Furniture	5-10 years
Equipment	5-25 years
Infrastructure	5-50 years

<u>Long-term Obligations</u> — In the government-wide financial statements and the proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net assets.

<u>Fund Equity</u> – In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

March 31, 2006

Eliminations and Reclassifications:

In the process of aggregating data for the statement of net assets and the statement of activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the governmental activities column.

Property Taxes:

Village property taxes are attached as an enforceable lien on property as of July 1. Taxes are levied July 1 and are due without penalty on or before September 30.

The 2005 taxable valuation of the Village totaled \$15,445,472, on which ad valorem taxes levied consisted of 10.6921 mills for the Village's operating purposes, of which 2.2653 mills was allocated to municipal streets.

The delinquent real property taxes of the Village are purchased by Tuscola County. The delinquent real property taxes are received soon enough after year end to be recorded as revenue in the current year.

NOTE 2: STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary Information:

The Village follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. The Village Clerk submits to the Village Council a proposed operating budget by fund for each year. The operating budget includes proposed expenditures and the means of financing them.
- 2. A public hearing is conducted to obtain taxpayer comments.
- 3. Prior to April 1, the budget is legally enacted by adoption of the Village Council.
- 4. Any revision that alters the total expenditures of any fund must be approved by the Village.
- 5. Formal budgetary integration is employed as a management control device during the year for all funds
- 6. Governmental fund budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. A comparison of actual results of operations to the General Fund and major Special Revenue Fund budgets as originally adopted and amended by the Village Council is included in the required supplemental information.
- 7. All annual appropriations lapse at fiscal year end.

Excess of Expenditures over Appropriations in Budgeted Funds:

During the year, the Village did not incur any expenditures that were in excess of the amounts budgeted.

March 31, 2006

NOTE 3: DEPOSITS

Michigan Compiled Laws Section 129.91 (Public Act 20 of 1943, as amended) authorizes local governmental units to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The local unit is allowed to invest in bonds, securities, and other direct obligations of the United States or any agency of instrumentality of the United States; repurchase agreements; bankers' acceptances of United States banks; commercial paper rated within the two highest classifications, which matures not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions, which are rated as investment grade; and mutual funds composed of investment vehicles that are legal for direct investment by local units of government in Michigan.

The investment policy adopted by the Village Council is in accordance with Public Act 196 of 1997. The Village's deposits and investments have been made in accordance with statutory authority.

The Village's deposits are subject to custodial risk, which is presented in more detail as follows:

Custodial Credit Risk of Bank Deposits:

Custodial credit risk is the risk that in the event of a bank failure, the Village's deposits may not be returned to them. The Village does not have a deposit policy for custodial credit risk. At year end, the Village had \$436,154 of bank deposits (certificates of deposit, checking, and savings accounts), of which \$250,000 was covered by federal depository insurance and the remainder was uninsured and uncollateralized.

NOTE 4: RESTRICTED ASSETS AND BOND RESERVES

Water Fund Reserves:

The Village's ordinances authorizing issuance of the 1981 Water Supply System Revenue Bonds require that specific accounts be established and monies deposited as follows:

Receiving Account – All receipts are initially deposited into this account.

Operation and Maintenance Account – Transfers are to be made to cover upcoming operating expenses.

Bond and Interest Redemption Account – Monthly transfers are to be made equal to 1/6 of the next interest payment due plus 1/12 of the next principal payment due.

Water Bond Reserve Account – Annually \$5,000 is to be transferred to this account until \$50,000 is accumulated.

March 31, 2006

At March 31, 2006 the Village had these accounts established and had restricted cash as follows:

			<u>REQUIR</u>	EMENTS		_	R	Funded estricted Cash Balance
	Ma	rch 31, 2005		itions ctions)	M	larch 31, 2006		larch 31, 2006
Bond and interest redemption fund	\$	12,500	\$	-	\$	12,500	\$	-
Bond reserve account		50,000		-		50,000		50,000
	\$	62,500	\$	-	\$	62,500	\$	50,000

The Village has not funded the bond and interest redemption fund as required by the bond ordinance.

NOTE 5: CAPITAL ASSETS

Primary Government capital asset activity for the year ended March 31, 2006 was as follows:

	eginning Balance	\boldsymbol{A}	Additions	Re	tirements	Ending Balance
Governmental activities:						
Nondepreciable capital assets:						
Land	\$ 21,122	\$	59,000	\$	-	\$ 80,122

Recreation and culture	 1,271
Total governmental activities	\$ 51,060
Business-type activities:	
Sewer	\$ 30,463
Water	 33,501
Total business-type activities	\$ 63,964

March 31, 2006

NOTE 6: LONG-TERM LIABILITIES

The Village issues bonds, notes, and other contractual commitments to provide for the acquisition and construction of major capital facilities and the acquisition of certain equipment.

Long-term liabilities at March 31, 2006 consisted of the following:

			Annual	Original	
		Interest	Principal	Issue	Outstanding
Types of Indebtedness	Maturity	Rates	Installments	Amount	at Year-End
Governmental Activities					
Capital Lease Purchase Agreements:					
2005 Contract - 2005 Crown Victoria	3/23/07-3/23/08	5.45%	\$6,377-6,726	\$ 26,242	\$ 13,103
2003 Contract - 1998 GMC Dump Truck	9/29/06-9/29/07	5.20%	7,808-8,215	30,500	16,023
Contracts Payable:					
1996 Contract - Storm Water System Project	9/1/06-9/1/36	5.125%	18,000-74,000	1,350,000	1,227,000
2006 Contract - Ambulance building	1/6/07-1/6/08	4.50-4.75%	1,000-1,500	2,500	2,500
Business-type Activities					
Revenue Bonds:					
1981 Issue - Water Supply System Revenue Bonds					
Serial Current Interest Bonds	10/1/06-10/1/20	5.0%	25,000-50,000	830,000	540,000

The following is a summary of long-term liabilities transactions for the year ended March 31, 2006:

	Ì	Beginning				Ending	D_{l}	ue Within
		Balance	Additions	R	etirements	Balance	(One Year
Governmental activities:								
Capital Lease Purchase Agreements								
2005 Contract	\$	19,151	\$ -	\$	(6,048)	\$ 13,103	\$	6,377
2003 Contract		23,445	-		(7,422)	16,023		7,808
Contracts Payable								
1996 Contract		1,243,000	-		(16,000)	1,227,000		18,000
2006 Contract		-	2,500.00		-	2,500.00		1,500
Compensated Absences		7,290	-		(4,170)	3,120		-
Total governmental activities								
- long-term liabilities	\$	1,292,886	\$ 2,500	\$	(33,640)	\$ 1,261,746	\$	33,685
Business-type activities:								
Revenue Bonds:					(- 40 000		• • • • • •
1981 Issue	\$	565,000	\$ -	\$	(25,000)	\$ 540,000	\$	25,000

March 31, 2006

Annual debt service requirements to maturity for the above bond and contractual obligations are as follows:

Year Ended	Governn			Governmental Activities			Ви	sine	ss-type Activi	ties	
March 31,		Principal		Interest		Total	Principal		Interest		Total
2007 2008	\$	33,685 33,941	\$	62,470 61.291	\$	96,155 95,232	\$ 25,000 30,000	\$	26,375 25.000	\$	51,375 55,000
2009		19,000		60,552		79,552	30,000		23,500		53,500
2010 2011		20,000 21,000		59,553 58,502		79,553 79,502	30,000 30,000		22,000 20,500		52,000 50,500
2012-2016		122,000		274,854		396,854	175,000		77,875		252,875
2017-2021 2022-2026		156,000 200,000		239,338 193,983		395,338 393,983	220,000		28,750		248,750
2027-2031		254,000		136,070		390,070	-		-		-
2032-2036 2037-2041		325,000 74,000		62,141 1,896		387,141 75,896	-		-		<u>-</u>
	\$	1,258,626	\$	1,210,650	\$	2,469,276	\$ 540,000	\$	224,000	\$	764,000

NOTE 7: INTERFUND BALANCES AND TRANSFERS

The composition of interfund receivable and payable balances at March 31, 2006 is as follows:

Receivable Fund	Receivable Fund Payable Fund				
General Fund	Major Street	\$	1,455		
	Local Street		708		
	Sewer Fund		13,957		
	Water Fund		3,206		
			19,326		
Debt Service Fund	Sewer Fund		13,677		
Water Fund	Sewer Fund		33,575		
		\$	85,904		

Management does not anticipate individual interfund balances to remain outstanding for periods in excess of one year. The balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

March 31, 2006

Interfund transfers reported in the fund statements were as follows:

Funds Transferred From	Funds Transferred To	A	mount
Major Street Fund	Local Street Fund	\$	5,000
Major Street Fund	Debt Service Fund		17,590
Local Street Fund	Debt Service Fund		17,590
	Total	\$	40,180

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the various funds to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 8: RISK MANAGEMENT

The Village is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation) and certain medical benefits provided to employees.

The Village has purchased commercial insurance for medical benefits, manages its workers compensation risk, by participating in Michigan Municipal Workers Compensation Fund, and its liability and property risk by participating in the Michigan Township Participating Plan a public entity risk pool providing property and liability coverage to its participating members. The Village pays an annual premium for its workers compensation, property and liability insurance coverage. Both the Michigan Municipal Workers Compensation Fund and the Michigan Township Participating Plan are self-sustaining through member premiums. The Michigan Township Participating Plan provides, subject to certain deductibles, occurrence-based casualty coverage for each incident and occurrence-based property coverage to its members by internally assuring certain risks and reinsuring risks through commercial companies. Various deductibles are maintained to place the responsibility for small charges with the insured. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

NOTE 9: DEFINED CONTRIBUTION PENSION PLAN

The Village has a defined contribution pension plan administered by The Variable Annuity Life Insurance Company. All employees except for volunteer firefighters are eligible for benefits. The Village contributes 8.25% of each eligible employee's pay to the plan. For the fiscal year ended March 31, 2006, the Village made contributions of \$11,047 into the pension plan.

March 31, 2006

NOTE 10: POST EMPLOYMENT BENEFITS

The Village currently does not provide post employment benefits other than its pension plan.

NOTE 11: PRIOR PERIOD ADJUSTMENTS

FUND STATEMENTS:

Change in Recognition of Sales Tax Revenue:

In the prior year, the receivable recorded for the payment distributed in April 2005 for March and April 2005 collection period was overstated by \$7,546.

The effect of this adjustment on General Fund fund balance is as follows:

	_	Fund
Fund balance, as previously stated, as of 3/31/05 Add: State shared revenue for sales tax that should not have been recorded as receivable	\$	89,645 (7,546)
Fund balance, restated, as of 3/31/05	\$	82,099

General

Change in Recognition of Contribution from County for Road and Bridge Taxes Levied:

Recognition of funds from property tax levies should coincide with the year the taxes were levied. In prior years, the payment distributed by Tuscola County in either March or April was recorded as revenue in the year that it was received. In accordance with accounting principles generally accepted in the United States of America, this payment should be accrued to the prior year.

The effect of this adjustment on Major Street and Local Street fund balances is as follows:

	Major Street Fund	Local Street Fund
Fund balance, as previously stated, as of 3/31/05 Add: Contribution from 2004 County tax levy that should have been	\$ 8,266	\$ 3,710
recorded as revenue	 14,275	7,120
Fund balance, restated, as of 3/31/05	\$ 22,541	\$ 10,830

March 31, 2006

GOVERNMENT-WIDE STATEMENTS:

Change in Recognition of Accrued Interest Payable:

Accrued interest payable should be recorded for the governmental activity debt. In the prior year there was no accrual recorded for the interest payable on the governmental activity debt. In accordance with accounting principles generally accepted in the United States of America, this accrual should be recognized in the prior year.

Change in Recognition of Compensated Absences Payable:

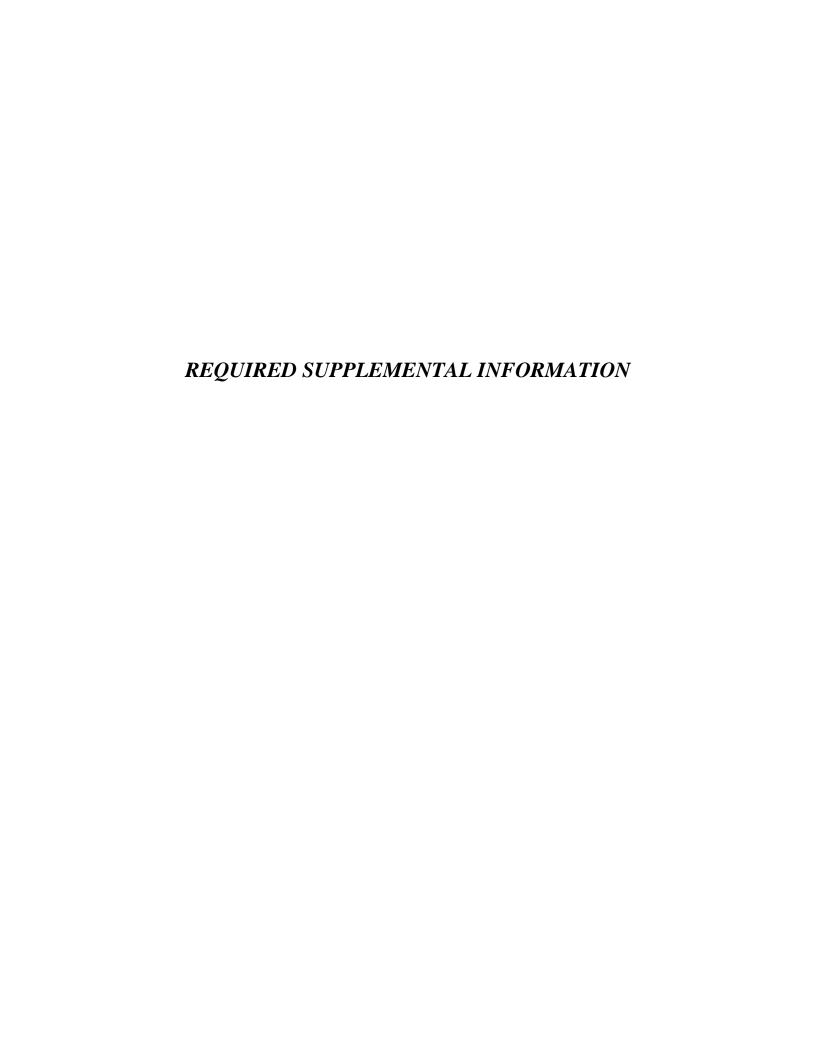

In the prior year the payable for compensated absences was recorded at 100% of the banked days. The Village policy is to pay 50% of this amount upon retirement or death.

Change in Reporting of Downtown Development Authority:

Based on criteria established by GASB #14, the Downtown Development Authority should be recorded as a discretely presented component unit. In prior years, the Downtown Development Authority was recorded as blended component unit.

The effect of these adjustments and the Fund Statement adjustments on the Governmental Activity Net Assets is as follows:

Net assets, as previously stated, as of 3/31/05	\$	(679,038)
Deduct: Accrued interest payable that should have been recorded		(5,920)
Add: 50% of compensated absences payable at March 31, 2005 that should not		
have been recorded		3,645
Deduct: Net assets of Downtown Development Authority that was incorrectly blended		(80,987)
Deduct: Overstatement of State shared revenue for sales tax receivable with Village funds		(7,546)
Add: Contribution from 2004 County tax levy that should have been recorded as revenue	_	21,395
Net assets, restated, as of 3/31/05	\$	(748,451)

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Village Council Village of Mayville, Tuscola County, Michigan

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the Village of Mayville, as of and for the year ended March 31, 2006, which collectively comprise the Village of Mayville's basic financial statements and have issued our report thereon dated June 5, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the Village of Mayville's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control would not necessarily disclose the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Village of Mayville's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, Village Council, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

To The Village Council Village of Mayville

We have audited the financial statements of the Village of Mayville for the year ended March 31, 2006. As required by auditing standards generally accepted in the United States, the independent auditor is required to make several communications to the governing body having oversight responsibility for the audit. The purpose of this communication is to provide you with additional information regarding the scope and results of our audit that may assist you with your oversight responsibilities of the financial reporting process for which management is responsible.

Our Responsibility Under U.S. Generally Accepted Auditing Standards

We conducted our audit of the financial statements of the Village of Mayville in accordance with auditing standards generally accepted in the United States. The following paragraph explains our responsibilities under those standards.

Management has the responsibility for adopting sound accounting policies, for maintaining an adequate and effective system of accounts, for the safeguarding of assets, and for devising an internal control structure that will, among other things, help assure the proper recording of transactions. The transactions that should be reflected in the accounts and in the financial statements are matters within the direct knowledge and control of management. Our knowledge of such transactions is limited to that acquired through our audit. Accordingly, the fairness of representations made through he financial statements is an implicit and integral part of management's accounts and records. However, our responsibility for the financial statements is confined to the expression of an opinion on them. The financial statements remain the responsibility of management.

The concept of materiality is inherent in the work of an independent auditor. An auditor places greater emphasis on those items that have, on a relative basis, more importance to the financial statements and greater possibilities of material error than those items of lesser importance or those in which the possibility of material error is remote.

For this purpose, materiality has been defined as "the magnitude of an omission or misstatement of accounting information that, in light of surrounding circumstances,

makes it probable that the judgment of a reasonable person relying on the information would have been changed or influenced by the omission or misstatement."

An independent auditor's objective in an audit is to obtain sufficient competent evidential matter to provide a reasonable basis for forming an opinion on the financial statements. In doing so, the auditor must work within economic limits; the opinion, to be economically useful, must be formed within a reasonable length of time and at reasonable cost. That is why an auditor's work is based on selected tests rather than an attempt to verify all transactions. Since evidence is examined on a test basis only, an audit provides only reasonable assurance, rather than absolute assurance, that financial statements are free of material misstatement. Thus, there is a risk that audited financial statements may contain undiscovered material errors or fraud. The existence of that risk is implicit in the phrase in the audit report, "in our opinion."

In the audit process, we gain an understanding of the internal control structure of an entity for the purpose of assisting in determining the nature, timing, and extent of audit testing. Our understanding is obtained by inquiry of management, testing transactions, and observation and review of documents and records. The amount of work done is not sufficient to provide a basis for an opinion on the adequacy of the internal control structure.

Significant Accounting Policies

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by the Village of Mayville are described in Note 1 to the financial statements. We noted no transactions entered into by the Village of Mayville during the year that were both significant and unusual, and of which, under professional standards, we are required to inform you, or transactions for which there is a lack of authoritative guidance or consensus.

Other Communications

Auditing standards call for us to inform you of other significant issues such as, but no limited to, 1) Accounting estimates that are particularly sensitive because of their significance to the financial statements or because of the possibility that future events affecting them may differ markedly from management's current judgments; 2) Significant audit adjustments that may not have been detected except through the auditing procedures we performed; 3) Disagreements with management regarding the scope of the audit or application of accounting principles; 4) Consultation with other accountants; 5) Major issues discussed with management prior to retention; and 6) Difficulties encountered in performing the audit.

We have no significant issues, regarding these matters, to report to you at this time. Audit adjustments were minimal, and are available to review.

These conditions were considered in determining the nature, timing and extent of the audit tests to be applied in our audit of the Village's financial statements and this communication of these matters does not affect our report on the organization's financial statements, dated June 5, 2006.

Summary

We welcome any questions you may have regarding the foregoing.

Sincerely,

Berthiaume & Company
